

As fiduciaries, plan sponsors are required to demonstrate a prudent decision making and oversight process

FIDUCIARY PROCESS

Plan sponsors must document their process in order to demonstrate they have met their fiduciary responsibilities.

- ✓ Implement a process to fully document their procurement process for medical and Rx
- ✓ Demonstrate a decision-making process based on the plan's actual data and perform required regulatory reporting and analysis
- ✓ Benchmark their plan against industry accepted standards and RFP practices

OneVision provides employers with the necessary toolkit to meet the obligations as a fiduciary.

PLAN GOVERNANCE

- Documentation, process and procedure
